

COVID Vaccine Locations, Testing, In-Home and School-Based Testing

The Department of Health and Social Services established a number of COVID-19 test sites throughout the state. If you have the following symptoms you may want to get checked for COVID-19: symptoms ranging from mild to severe, including fever/chills, cough, fatigue, shortness of breath, new loss of taste or smell, sore throat, congestion, headache, nausea or vomiting, and diarrhea. [Find a testing location near you.](#)

For those that are **deaf or hard of hearing** you can call 2-1-1 or text your ZIP code to 898-211, which provides accessible information.

In-Home Test Kits

Would you like to take the test at home? The Division of Public Health has a saliva collection kit that is sampled with the assistance of an online healthcare provider through video telehealth. Find out how to [Get an In-Home Test Kit.](#)

Get The Vaccine

If you are ready to take the COVID-19 vaccination visit [Get The Vaccine](#) to find a location near you.

Coronavirus School Testing

Delaware Division of Public Health in partnership with Quidel will provide asymptomatic COVID-19 screening services to participating school districts. Students and faculty that opt-in to the COVID-19 screening program will be testing with Quidel's rapid antigen tests to facilitate the re-opening of K-12 public schools in the fall of 2021.
